HOLT ACT 2615

Dear Mr Kolobaric

I write in relation to the recent findings against Raiders Belconnen by the ACT Gambling and Racing Commission.

The Commission was responding to a complaint by Professor Laurie Brown who had lost \$230,078 on the poker machines at the club. According to media reports, the Commission found that Professor Brown's losses were the result of Raiders Belconnen failing to record signs she had a gambling problem.

In light of this I request an immediate refund of all of the losses incurred by Professor Brown at your venue. This would go some way to remedying the situation, despite the unfortunate fact that no recompense will ever reverse the emotional anguish and reputational damage caused by this dreadful episode.

Yours sincerely
